### ABOUT ME

I am a dedicated software developer with a strong foundation in web development, specializing in Next.js, TypeScript, React, and Tailwind CSS. I am passionate about creating dynamic, responsive, and user-centric web applications. With a keen focus on clean code and best practices, I strive to deliver high-quality solutions that meet user needs and business goals. Always eager to learn and adapt, I aim to contribute to projects that challenge my skills and expand my knowledge in the tech industry.

### WORK EXPERIENCE

#### Frontend Developer (Governor's House)

Duration: 1 Year

- Gained hands-on experience in modern frontend technologies including HTML, CSS, JavaScript, TypeScript, React, and Next.js.
- Successfully built responsive and dynamic user interfaces using Next.js and Sanity CMS for content management.
- Demonstrated expertise in creating visually appealing, interactive web applications with a focus on performance and user experience.
- Collaborated on projects involving TypeScript, ensuring robust type safety and code maintainability.

### Additional Learning & Development

- Currently learning Python to expand my programming skills and backend knowledge.
- Pursuing an advanced Agentic AI course to deepen my understanding of artificial intelligence and its applications.
